

- As a Company, we have earned a reputation of a world leader in the production of infrared detectors. We have our proprietary technology as well as the facilities necessary to implement new solutions.
- As a Team, we combine passion for scientific achievements with the pursuit for their business applications.
- As Employees, we foster a friendly atmosphere and open communication, which help us respond to the needs of even the most demanding Customers.

We are currently recruiting:

Trainee in the Technical Sales Support Team

YOU

You have a scientific mind that led you to study engineering, but you also have highly developed social skills and the confidence to network. You are interested in PHOTONICS and manufacturing technologies as well as applications of semiconductors and whole systems. You are fluent in English and able to work in an English-speaking environment.

WE

We organise a Summer Internship Programme to give entrepreneurial students the chance to gain their first work experience. In our Team we deal with broadly defined cooperation with clients, so we can introduce you to the specifics of working with HIGH-TECH companies. We will show you how extensive and diverse the applications of our products are, you will learn how we prepare their specifications and adapt them to the needs of even the most demanding customers.

TOGETHER

We can devote one summer month to engaging you in the wide spectrum of daily duties of our engineers. We will be happy to answer your questions and, above all, show you how exciting it may be to apply your academic knowledge in business practice.

We look forward to receiving your application.

Do not miss your chance to develop among the best

Why apply to VIGO?

- We treat each and every application as an expression of highest trust and we give it the attention it deserves. We provide ALL applicants with an update on the application procedure as soon as possible.
- We believe in the effectiveness of experiential learning, we strive to recognise potential and tailor the placement plan to the Students' factual interests.
- We will award outstanding Students with cash prizes.
- Most interns stay with us for a longer period of time, successfully combining work with studies, and graduates can count on permanent employment.

To apply, please send your application
