

- As a Company, we have earned a reputation of a world leader in the production of infrared detectors. We have our proprietary technology as well as the facilities necessary to implement new solutions.
- As a Team, we combine passion for scientific achievements with the pursuit for their business applications.
- As Employees, we foster a friendly atmosphere and open communication, which help us respond to the needs of even the most demanding Customers.
- If you would like to join us, we are currently looking for a person for the position of:

PROCESS ENGINEERING MANAGER

What tasks will we entrust you with?

- Build and manage process engineering team
- Create industrial projects and production standardization roadmap
- Coordinate new product introduction (NPI), manage production process changes and implement strategy for process control for semiconductor manufacturing
- Continuous improvement for manufacturing processes yield and cost
- Provide analytical input for company strategic planning
- Stay up to date with semiconductor manufacturing technologies and cooperate directly with international project teams and equipment suppliers
- Assure right quality of production documentation
- Close collaboration with other teams in VIGO, especially the production department and R&D

What qualifications do we require?

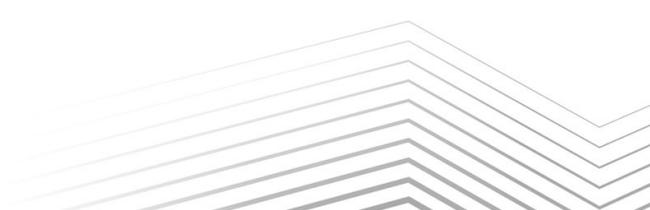

- Higher technical education (preferred applied physics or microelectronics)
- Minimum 3 years experience in people management in semiconductor manufacturing company or similar industry
- Strong experience in semiconductor processing technologies and semiconductor assembly (e.g. wirebonding)
- Experience in production process continuous improvement and cost reduction

• Why apply to VIGO?

- We treat each and every application as an expression of the highest trust and give it the attention it deserves. We provide ALL applicants with an update on the application procedure as soon as possible.
- The selected person will be offered stable employment, an extensive employee benefits package and opportunities for professional training and development.
- We provide an elaborate induction process and make sure that every new VIGO Employee feels a part of our Team from the very first day.
